

Script translation log:

Candidate:	Whole of Party
Party:	Australian Labor Party - Victoria
Speaker	Premier Dan Andrews

Hi. My name is Dan Andrews, and I am the Premier of Victoria.

I am also the Leader of the Labor Party in Victoria.

I grew up in Wangaratta, and now I live in Mulgrave with my wife Cath, and our three kids, Noah, Grace and Joe.

I am very proud to be Victoria's Premier, and I am proud to be the leader of a Labor Government. Our party has been in government for 8 years now.

Labor believes in fairness. This means that everyone should have the same chance to live a good life. It also means that we should have good services that treat everyone with the same respect and care.

For us, fairness means everyone should have the chance to have a good job that is safe and well-paid.

We believe in supporting our doctors and nurses so they can look after people who are sick or injured.

And we believe in great schools, kindergartens and TAFEs - so that every Victorian can be their best.

Pause

Labor has a plan to make many good changes for Victoria.

This includes building more roads, trains and buses so that people can get where they need to go – to the shops, to work, to medical appointments and to visit friends and family.

We also want to help people who are struggling to pay their bills. We are going to make kinder free for kids and make TAFE courses free for students. We will also make the cost of energy cheaper.

Our plan will also make lots of new jobs. We want more Victorians to have the chance to make a difference in their community and in Victoria, and support themselves and their families.

We think this is a very important election. It's important you think carefully about who you vote for. Your vote matters.
