

Script translation log:

Candidate:	Stephen Capon
Party:	Independent
District:	Narre Warren North

Hi. My name is Stephen Capon. I'm 25, and I've just finished studying at Monash University. I studied Engineering and Computer Science.

I am an independent candidate, so I don't belong to a party. I want to be elected to the Legislative Assembly, also called the Lower House of Parliament. I am in the district called Narre Warren North and I've lived here my whole life.

My first key value is taking responsibility. This means accepting that mistakes happen, and fixing the mistakes that I make. We should not leave problems for other people to fix.

My second key value is service. This means I will take the time to listen to you and the people of Narre Warren North. I will put your needs first. I will make sure your needs are understood by other politicians and government.

Pause

There are three main things I want to do if I am elected.

First, I want to make it easier for people to find a place to live. This means... making it easier to get public housing or to buy a house. It also means making sure rent is not too expensive.

Second, I also want to make sure that we all look after the environment. We need to put less pollution into the air, land and sea. We need to make less rubbish and plastic. And I want our state to get better at recycling our rubbish and waste.

Third, I want to help people trust politics again. As an independent candidate in Parliament, I won't have to do what a party tells me to do. When I decide what to do in parliament, I can do what my community wants me to do.

I am Stephen Capon, and I am an independent candidate for Narre Warren North.
