

## Script translation log:

<b>Candidate:</b>	Whole of Party
<b>Party:</b>	Victorian Socialists

My name is Liz Walsh and I want to tell you about the political party called the Victorian Socialists.

We think there are too many rich people who are getting richer, while most people struggle with money. We want to change this.

The Liberal Party and the Labor Party have led government in Victoria for too long. The areas where everyday people live do not get enough help from the government. The areas where rich people live get a lot of help from the government. This is not fair.

It is very expensive to buy a house. Most people can't afford to buy a home anymore.

Our gas and electricity companies have been privatised. This means that the government does not own or control any part of these organisations anymore. This is meant to save us money, but our bills are still getting more expensive.

Our healthcare and schools do not get enough money. This means that schools, hospitals and healthcare centres find it hard to meet everyone's needs.

Too much money is given to prisons and police. This needs to change.

People who come to Australia from other countries to live a better life are called migrants or refugees. Sometimes they get blamed for things they did not do. This happens in the media, in the community, and in other places. This is not OK.

We want to change these things. The Victorian Socialists want to help the community by helping everyday people, and people who have been forgotten.

We will fight for people to be treated fairly and equally. We will also fight to protect our environment. We want to make a community that thinks about people before it thinks about money.

This election, we can do something that has not happened for a very long time. We can put a Victorian Socialist in parliament. A Victorian Socialist will fight for all of us.
